IDENTITY STANDARDS

## THE APPROVED COLORS

These CMYK, RGB, spot and web hexadecimal colors should always be used for print, reproduction and design of any kind.

Using tints of the colors in the primary palette is permitted. However, tints may not be used to recreate the logo.

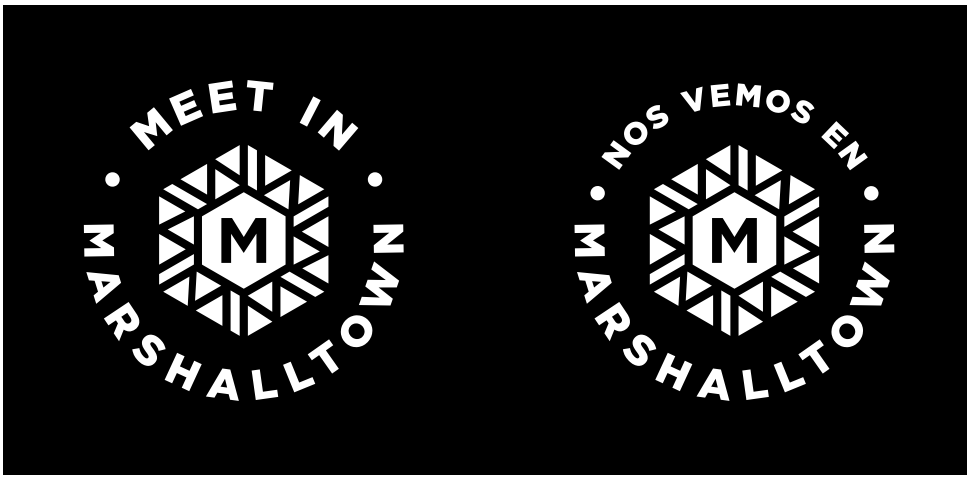
## 5. APPROVED COLOR LOGO SEAL

The full-color logo is intended for use in specific contexts where a seal is suitable for the desired layout. It is adaptable for smaller sizes and can seamlessly integrate with various background contexts. Please avoid distorting, cropping, or otherwise altering the logo from its original proportions.

6.



## 6. APPROVED ONE-COLOR BLACK AND REVERSED STACKED LOGOS

The one-color logo seal versions are suitable for specific contexts where a seal is desired for the layout. They work well at smaller sizes and are adaptable to various background contexts. Please avoid any distortion, cropping, or manipulation of the logo that alters its original proportions.

## 7. 1-COLOR VARIATIONS

One-color variations of the primary, stacked, and seal logos have been designed in each of the colors featured in the Meet In Marshalltown color palette. They are made available for use over complementary colors found in the Marshalltown color palette. Please utilize these color variations exclusively as a secondary branding choice to enhance specific design applications.

8.

## 8. AREA OF NONINTERFERENCE

The area of noninterference for the logo is equal to the height of the “M” from the logo. Other design elements should not enter this space. This provides ample space when the logo is used with other elements on a page.

9.

## 9. MINIMUM SIZE

The primary horizontal logo should not be used smaller than a 1.75” width, the stacked logo should not be used smaller than 1.25” and the seal should not be used smaller than .625”.

Each may be used as large as needed.
